

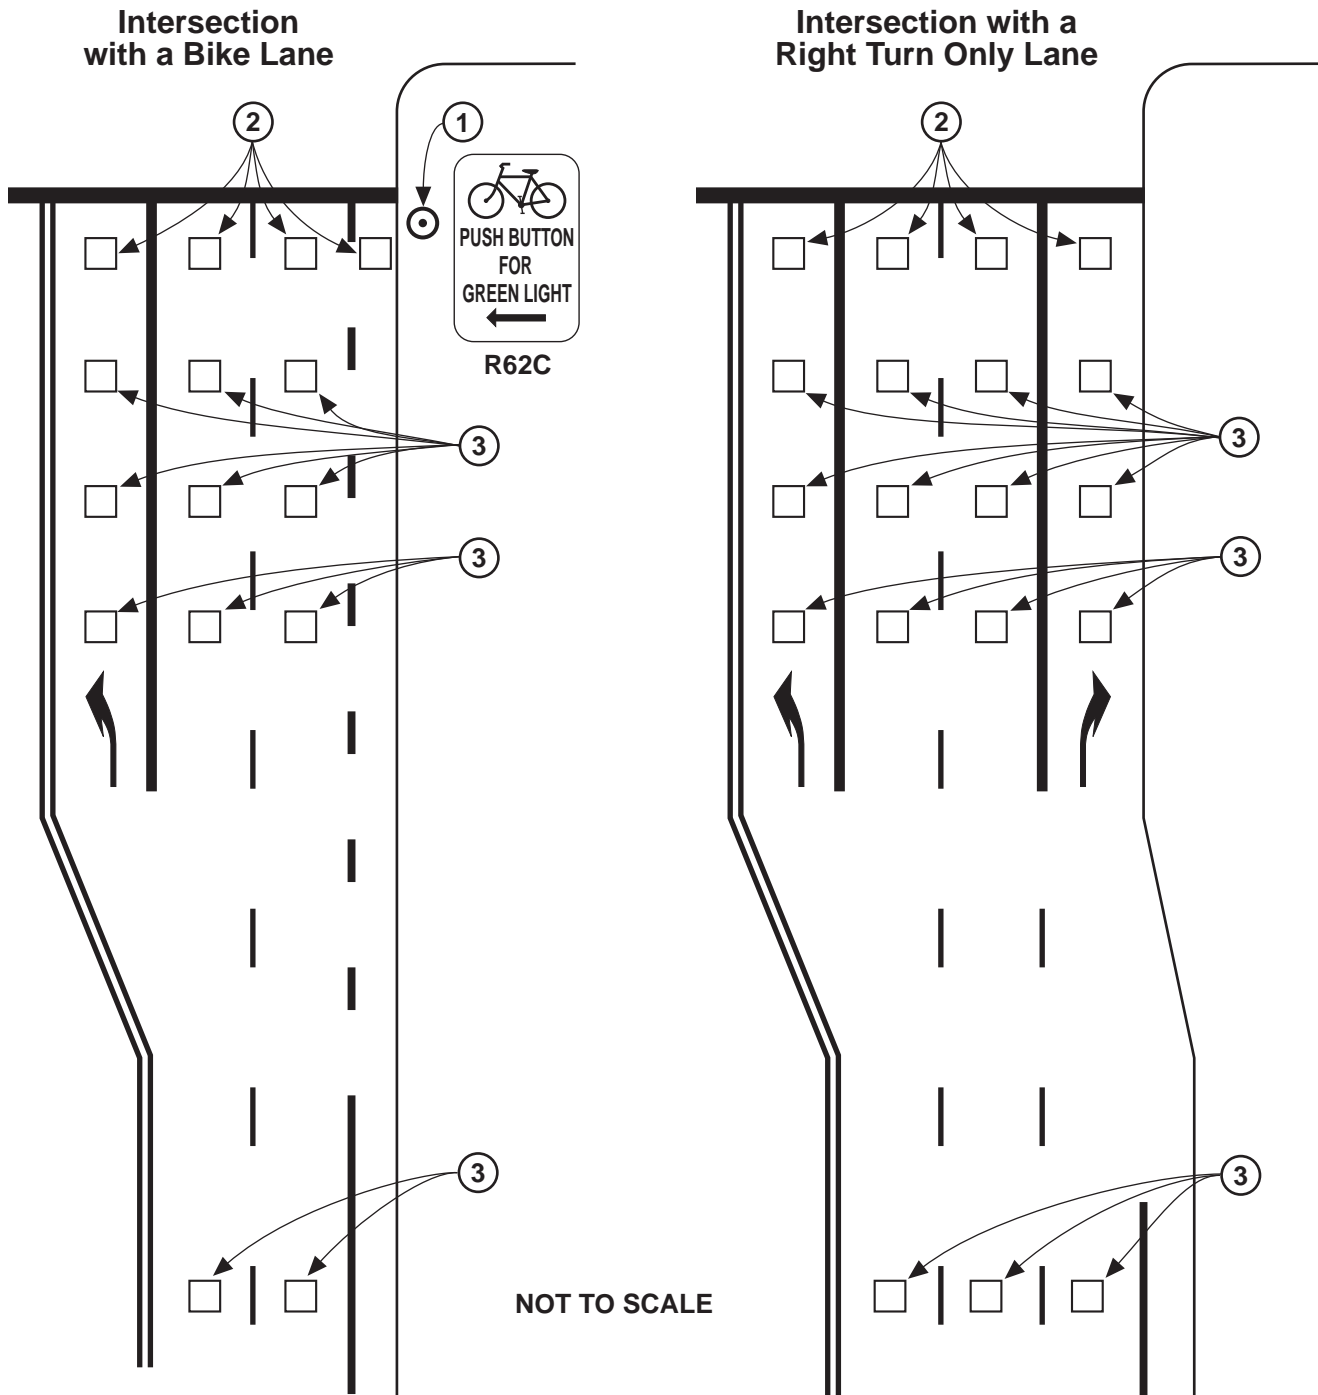

**Figure 9-12
BICYCLE DETECTION SYSTEMS**

NOTES:

1. Bicycle Push Button and Sign (R62C) or a Type D Loop Detector may be used to activate a traffic signal. A push button should be located so it is convenient to use by bicyclists.
2. Typical Type D Loop Detector locations.
3. Typical Loop Detector locations. See Section 9-03.24.
4. See Standard Plan A24C for Bicycle Loop Detector pavement marking details.
